The EMMA 5 D's MOOC Framework (output July 2016)

Wednesday 21 September: 15.00-16-30 (CEST)

By: Marcelo Maina and Lourdes Guàrdia (Universitat Oberta de Catalunya)

Abstract

The EMMA 5D MOOC framework is a way to describe the full cycle of MOOC creation and delivery. By identifying 5 stages of MOOC implementation (Decide; Design; Develop; Deliver; and Document), the framework introduces a set of questions as well as examples taken from three complementary perspectives: institutional, pedagogical and technical. The EMMA 5D MOOC framework integrates the distinctive EMMA project experience in cultural and linguistic diversity. It is also the result of a comparative literature review on the subject.
