**Deconstructing Technology Enhanced learning: from platforms to the cloud**  
Wednesday 8 March: 11.00 – 12.30 (CET)

By: Miguel Rodríguez Artacho

### **Abstract**

Technology enhanced education has walked a long way since the first standardisation initiatives and industrial LMSs almost 20 years ago. In this scope we take a look back and forward in the current state of educational technologies with a view of current trends in the demand for distance education.
